How to make a sealed bid

Sealed bidding allows you to place a bid on as many items as you want, however all bids are sealed so you won't know the top bid. At the end of the auction the person with top bid will win the item. Multiple versions of selected items may be available, in which case top bidders will win.

By placing your best bid first, you're putting yourself in a brilliant position to win the item.

Remember that you can bid as many times as you like!
